## Company Highlights

Paramount Gold Nevada (PZG) is a U.S domiciled and U.S listed company in the business of acquiring, exploring, and developing precious metals projects in the western U.S. Currently, Paramount owns two advanced stage assets in eastern Oregon and Nevada with total gold resources of more than 4 million ounces and additional exploration upside.

In November 2023 Paramount's proposed high-grade Grassy Mountain mine received the Notice to Proceed from Oregon State permitting regulators, becoming the first mining project in the State to advance to permit drafting.

## Projects

### ► Grassy Mountain, Oregon

On track to become Oregon's first modern mine with final permits to build and operate the mine expected 2025. Grassy will be a small footprint high-grade U/G mine with an initial mine life of 8 years and numerous ways to generate mine-life extension.

In developing Grassy, Paramount has an opportunity to contribute significant economic stimulus to Malheur County Oregon.

## GRASSY MOUNTAIN, OREGON

### Feasibility Study Highlights (October 2022):

- Total resources of 1 million oz, incl. 380k reserves
- After-tax IRR of 23% and NPV5% of \$114M
- High average grade of ~6.8 g/T gold
- AISC of \$815 per ounce of gold
- Average annual gold production of ~50k oz
- Avg. annual free cash flow of \$20 M (post tax)
- CapEx of \$138M
- Gold price of \$1,750

► **Sleeper, Nevada**

Located in one of the world's premier mining jurisdictions, Paramount controls a district scale land package greater than 40,000 acres including and surrounding the historic, past producing high-grade (7g/t) Sleeper mine.

Current gold resources ~ 3 million (1.9M M&I and 1.2M inferred).

Sleeper has significant exploration potential and a straightforward path to production.
